Participation is also open to international organisations.

12. **Candidature**

All eligible natural and legal persons (as per item 11 above) or groupings of such persons (consortia) may apply.

A consortium may be a permanent, legally-established grouping or a grouping which has been constituted informally for a specific tender procedure. All members of a consortium (i.e., the leader and all other members) are jointly and severally liable to the contracting authority.

The participation of an ineligible natural or legal person (as per item 11) will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

13. **Number of applications**

No more than one application can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or member of a consortium submitting an application). In the event that a natural or legal person submits more than one application, all applications in which that person has participated will be excluded.

14. **Shortlist alliances prohibited**

Any tenders received from tenderers comprising firms other than those mentioned in the shortlisted application forms will be excluded from this restricted tender procedure unless prior approval from the contracting authority has been obtained (see practical guide – PRAG – 2.6.3.).

Selection and Award Criteria

21. **Selection criteria**

The following selection criteria will be applied to candidates. In the case of applications submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

1) Economic and financial capacity of candidate (based on item 3 of the application form). In case of candidate being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three financial years for which accounts have been closed.

— the average annual turnover of the candidate must exceed EUR 700 000

2) Professional capacity of candidate (based on items 4 and 5 of the application form). The reference period which will be taken into account will be the last three years preceding the submission deadline.

— at least 5 staff currently work for the candidate in the fields related with the contract

3) Technical capacity of candidate (based on items 5 and 6 of the application form). The reference period which will be taken into account will be the last three years preceding the submission deadline.

1. the candidate has provided services under a single contract or similar assignment with a budget of at least EUR 500 000 (proportion carried out by the candidate) in the field of setting up/strengthening institutional risk management systems aligned with ISO 31000 and/or COSO ERM which was implemented at any moment during the reference period: 3 years from the submission deadline (the start and end/completion dates of the references should be specified as day/month/year).

2. the candidate has provided services under a single contract or similar assignment with a budget of at least EUR 300 000 (proportion carried out by the candidate) in the field of software development in compliance with ISO 27001 procedures which was

implemented at any moment during the reference period: 3 years from the submission deadline (the start and end/completion dates of the references should be specified as day/month/year).

This means that the contract/assignment the candidate refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period.

Candidates are allowed to refer either to contracts/assignments completed within the reference period (although started earlier) or to contracts/assignments not yet completed. In the first case the contract/assignment will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, proof of final payment). In case of contracts/assignments still on-going

only the portion satisfactorily completed during the reference period although started earlier will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to contracts/ assignments completed) also detailing its value. If a candidate has implemented the contract/assignment in a consortium, the percentage that the candidate has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided if the selection criteria relating to the pertinence of the experience have been used. Documentary evidence is not required at the application stage but will be requested with the invitation to tender.

Previous experience which caused breach of contract and termination by a contracting authority shall not be used as reference.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them.

If the tenderer relies on other entities it must prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility — notably that of nationality — and must comply with the selection criteria for which the economic operator relies on them. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be provided when requested by the contracting authority.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the services for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

If more than 8 eligible candidates meet the above selection criteria, their relative strengths and weaknesses must be re-examined in order to rank their applications and identify the 8 best candidates in accordance with point 17 of this contract notice. The only additional comparative criteria that will be taken into consideration during this re-examination, in the order in which they appear below, are:

- the highest number of contracts/similar assignments that meet criterion 3.2,
- the highest cumulated value of all the contracts/similar assignments that meet criterion 3.2.

N.B.: additional comparative criterion No 1 shall be applied to all the eligible candidates that meet the selection criteria. If, after applying additional comparative criterion No 1, it is not possible to identify the 8 best candidates because two or more candidates are tied for the 8th position, additional comparative criterion No 2 shall be applied only to these tied candidates.

22. **Award criteria**

Best price-quality ratio.

Application

23. **Deadline for submission of applications**

The candidate's attention is drawn to the fact that there are two different systems for sending applications: one is by post or private mail service, the other is by hand delivery.

In the first case, the application must be sent before the date and time limit for submission, as evidenced by the postmark or deposit slip(1), but in the second case it is the acknowledgement of receipt given at the time of the delivery of the application that will serve as proof.

Deadline: 5.00 p.m. (local time) on 18 May 2020.

Any application sent to the contracting authority after this deadline will not be considered.

The contracting authority may, for reasons of administrative efficiency, reject any application submitted on time to the postal service but received, for any reason beyond the contracting authority's control, after the effective

date of approval of the shortlist report, if accepting applications that were submitted on time but arrived late would considerably delay the evaluation procedure or jeopardise decisions already taken and notified.

(1) It is recommended to use registered mail in case the postmark would not be readable.

24. **Application format and details to be provided**

Applications must be submitted using the standard application form, the format and instructions of which must be strictly observed. The application form is available from the following Internet address:

By submitting an application candidates accept to receive notification of the outcome of the procedure by electronic means. Such notification shall be deemed to have been received on the date upon which the contracting authority sends it to the electronic address referred to in the application.

26. **Alteration or withdrawal of applications**
